- After each issue is printed, it is immediately uploaded on the official website, www.romanianjournalcardiology.ro. Great efforts were done so that all the issues and supplements beginning with 2003 are uploaded.
- To increase its level of visibility, *Romanian Journal of Cardiology*, with the full support of a dedicated team of medical authors and translators, has been publishing all the articles in English version beginning with last year's second issue.
- In August 2012, *Romanian Journal of Cardiology*, applied for the world's leading provider of science and health information, the *Elsevier* database. All the requirements were complied and the indexing process has started.

At a glance

As the world's leading provider of science and health information, Elsevier serves more than 30 million scientists, students and health and information professionals worldwide. We partner with a global community of 7,000 journal editors, 70,000 editorial board members, 300,000 reviewers and 600,000 authors to help customers advance science and health by providing world-class information and innovative tools that help them make critical decisions, enhance productivity and improve outcomes.

Headquartered in Amsterdam, we are a global company employing more than 7,000 people in 24 countries. We are a founding publisher of global programs that provide free or low-cost access to science and health information in the developing world. Elsevier's roots are in journal and book publishing, where we have fostered the peer-review process for more than 130 years. Today we are driving innovation by delivering authoritative content with cutting-edge technology, allowing our customers to find the answers they need quickly.

- In September last year *Romanian Journal of Cardiology* was chosen to be part of the pilot project of being indexed in the *European Society of Cardiology* search engine.
- All the articles in English published in *Romanian Journal of Cardiology* and its Supplements starting from 2010 were processed.
- At present, the indexing process has successfully ended.
